

THE TOGETHER PROJECT

OVERVIEW

In January 2017, in partnership with a group of founding Members and supported by CEOs across our community, InterAction launched the **Together Project**. The Together Project enables U.S.-based NGOs that provide vital development and humanitarian relief around the world—and confront discrimination or targeted prejudicial regulations in the U.S.—to share information and develop strategies in response to shrinking civil society spaces. The Together Project brings attention to issues that impact the NGO community, educates relevant policy-makers and officials, convenes and facilitates conversations about solutions, connects NGOs with one other, and builds solidarity.

OUR GOALS

DEFINE

Define a solid understanding of the legal, regulatory, and civil rights issues facing Member organizations.

ADVOCATE

Advocate for the preservation of civil society space, addressing discriminatory policies and inaccurate risk perceptions facing humanitarian and development organizations.

STRENGTHEN

Strengthen collective capacity, raise awareness, connect organizations, build solidarity and share best practices through the development of a broad secular and faith-based coalition.

OUR PRIORITIES

Formed in October 2017, the Together Project strengthens collective capacity, raises awareness of common issues impacting U.S.-based NGOs operating internationally, shares best practices, and develops strategies to combat shrinking civil society spaces. The Together Project, Core Members, and Associate Partners collaborate on:

- ✓ **Disinformation and Discrimination:** Disinformation and banking challenges are often born out of discriminatory practices. The Together Project actively combats these practices through positive public image and advocacy.
- ✓ **Advocacy and Solidarity:** Solidarity is foundational to the Together Project, Core Members, and Associate Partners who advocate together on issues that affect the NGO community as a whole.

The **Together Project** exists because we are one community of NGOs trying to serve humanity: Muslim, Jewish, Catholic, Protestant, other faiths, secular, liberal and conservative. An attack on one member is an attack on us all, and we will all push back.
