

USAID-InterAction Event: Update and Listening Session on USAID Climate Strategy

On April 21, 2022, USAID launched a new [Climate Strategy](#) to guide the agency's work through 2030 to tackle the climate crisis. The Strategy was the result of extensive consultations with stakeholders around the globe, including various listening sessions with the NGO community hosted by InterAction. At this event, USAID will provide a brief update on the Agency's work to address climate change, including through its own operations, and hear perspectives from the NGO community. *The event will include time for open discussion and Q&A.*

Remarks by:

Genevieve Maricle, USAID Senior Advisor for Climate and Environment

Ann Vaughan, Senior Advisor for Climate Change for USAID's Bureau for Resilience and Food Security

Various NGO Implementing partners

July 11, 2023

9:00 – 10:00AM EDT
